## MESSAGE FROM THE SECTION CHAIR

I have never been as honored and humbled by an opportunity than to be the Section Chair of such a terrific organization. I look forward to meeting with our members and working with so many of you this upcoming year and what this new year has to offer.

This year we will explore new opportunities to diversify our communications to membership. The Greater Houston area spans 10,062 square miles, and we want to make sure all our members can participate in a big way. That is why this year in addition to in-person meetings, we will be hosting them on a virtual platform for members who cannot attend.

We are adapting our newsletter platform this year as well. The section is rolling out a new, fully digital newsletter campaign set to begin in January 2021. The newsletter will give sponsors the opportunity to embed links to new product offerings, as well as the ability to share articles, pictures and videos. The newsletter will also feature a "Member Spotlight", recognizing technicians from our industry who have been nominated for excellent service and attitude in their respective field.

Now more than ever, we in the NDT community need each other. While we look to take care of our existing membership, we hope to attract our colleagues to join us in the pursuit of a safer world. We are fortunate to have one of the largest environments of mentors in our field and look to our members to continue to encourage to students and new technicians to become more involved in our society.

As we move forward into a new decade faced with many challenges – an enduring global pandemic, a collapse to the oil industry, and tens of millions of Americans unemployed – I hope that you will join me in coming together to nurture, grow and cultivate our society. I have learned best as a native Houstonian – we are resilient, and we will persevere. **We are Houston Strong.**
