GHASNT PRESIDENT'S LETTER

Stacie R. Cotie
GHASNT President

Passion is defined as an extreme, compelling emotion, which drives a person to action. People who share purpose fuel each other's passion. Our mission and purpose as a Society is to advance the field of nondestructive testing.

Why does this matter? How do we, as a society and local community ignite a passion within ourselves and others to fulfill our purpose?

In a world of uncertainty, NDT gives each of us the opportunity to provide a special type of safety and security to our parents, spouses, children, siblings, and all those special around us. NDT is performed before, throughout and after manufacturing to guarantee reliable, safe operations of all types of equipment and assets that affect and touch our everyday lives. The roads and bridges we drive on, airplanes that transport us, the vehicles we drive all have some method of testing and inspection performed.

There is purpose every day you are a part of this industry and profession, in whichever capacity you may serve. Knowing the importance of our mission and purpose, should ignite and fuel the passion within each of us to hold ourselves and others accountable to the highest standard. Promoting a public understanding of the importance of nondestructive testing and drawing in new, young talent is paramount to the continued safety and security we can pass along for generations after generations.

As your President, I am passionate about our Society, relative objectives, and vision. I am honored to serve our members, and work alongside a Board and Committee Members who also share in this purpose by freely volunteering their time in pursuit of the same passions. Giving back to our Society and Industry creates opportunity for progression. Progression in professional growth, development of new skills, meaningful connections, and a forum to attract highly talented persons into a career that makes a difference. As a society and industry, we are facing constraints and lack of new young talent in our labor market as we are an aging society, along with unique economic challenges as never seen before. How can we overcome this? Is there anything you personally feel you can do?

Getting involved and volunteering are easy ways to make a difference on issues that matter. When doing good for others and our community, a sense of pride, identity, and accomplishment is felt. GHASNT values our members and appreciates all those who currently volunteer their time and give back. If you want to connect with others, advance your career and bring fulfillment to your life, we would love to have you join our team to further our mission and purpose. Please reach out to anyone on our Board or come join us at our monthly meetings to learn out how to get engaged in an industry and society that has purpose and with others who have a passion to make a difference. We hope to hear from and see you soon!

Stacie Cotie
